marketing@mainelawyersreview.com

Additional specification notes:

- Please include all graphics and PostScript fonts (screen and printer) when creating a "print version" PDF.
- RGM/CMYK color should be stripped from any ads originally in color and converted to grayscale. (Many applications allow viewing output separations for a quick check.)
- Resolution requirements: grayscale: 200 dpi
- JPEG photo images may be submitted but not be specified as color images. Please send JPEG files as stand alone; do not embed in a document. We do not suggest the use of graphic images created for the internet as suitable quality formats for offset printing.

Please contact us for non-PDF submission arrangements.
